

Medica_{DC} 10 – All Surface Disinfectant/Cleaner

First Medica™

www.FirstMedica.com

Medica DC 10 uses quaternary ammonium to effectively kill Tuberculosis, HIV, Hepatitis B and C, Polio and drug resistant staph (VRE/MRSA). Medica DC 10 does not absorb through the skin and will not stain, damage instruments or hard surfaces. It can be used for immersion, as a surface spray or in an ultrasonic unit.

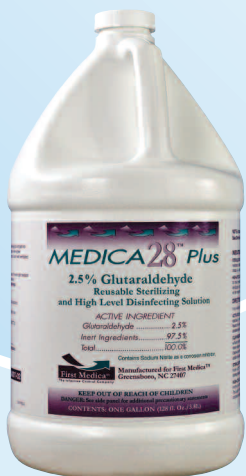

- 5 minute TB kill time, 3 minutes for most major viruses including HBV, HCV, MRSA, Rhinovirus, Rotavirus, 1 minute for HIV
- Ready to use Medica DC 10 is easy to use and does not require mixing or measuring
- Non-staining and non-flammable
- 2 year shelf life
- Versatile – can be used to soak instruments or in an ultrasonic cleaner
- Eliminates toxicity, inhalation and skin absorption dangers of phenol
- Comes in ready to use quarts, gallons and five gallon container, also available in one gallon concentrate

B025 - Quart

B026C - Concentrate

Medica 28 Plus – Cold Instrument Sterilant

Medica 28 Plus is a high strength formulation with faster kill times for high-level disinfection of instruments. Medica 28 Plus has a lower glutaraldehyde level which reduces odor and vapor levels in the operatory. Medica 28 Plus has minimal surfactant to protect lensed instruments and is safe for endoscope disinfection, will not stain and contains a rust inhibitor. A new liquid activator assures a mild, fresh scent, protects against corrosion and minimizes fuming.

- High strength sterilant
- High level instrument disinfectant
- 28 day solution
- 2.5% Glutaraldehyde advanced formulation – reduces vapors
- Tuberculocidal, Sporicidal, Virucidal, Pseudomonacidal, Bactericidal and Fungicidal
- Economically priced
- Rust Inhibitor – non-corrosive
- Easy to mix liquid activator

MedicaScrub – Antimicrobial Hand Soap

MedicaScrub uses triclosan to achieve the antibacterial efficacy required by dental and health care professionals. It is effective against E. Coli, Staphylococcus Aureus and Serratia Marcescens. It's high-foaming dispenser produces a rich foamy lather. Aloe Vera, Lanolin and Vitamin E keep your skin soft and moist. The fresh mango scent makes MedicaScrub pleasant to use even with frequent washings. No more dry itchy skin and harsh odors from chemical soaps when you use MedicaScrub.

- Aloe Vera, Lanolin and Vitamin E nourish and revitalize leaving your hands feeling soft & moist
- Triclosan achieves effective anti-microbial efficacy needs of dental and healthcare professionals
- Rich foamy lather has a fresh mango scent
- Foaming dispenser saves money by allowing more washes per ounce

C001-01 - 16 oz with dispenser

C001-02 - Gallon refill

C024 - 1.7oz pocket pal

MedicaSoft – Skin Conditioner

MedicaSoft skin conditioner is designed for healthcare and dental professionals who experience dry, irritated skin due to frequent hand washings. MedicaSoft contains Collagen, Aloe Vera, Vitamin E, Lanolin and other smoothing emollients to nourish, soothe and soften the skin. The new Green Apple fragrance is pleasant and mild. Unlike other lotions, MedicaSoft makes glove donning easy after use.

- Great for dry skin due to frequent hand-washing and glove usage
- Contains Collagen, Aloe Vera, Vitamin E, and Lanolin
- Nourishes, soothes and softens your hands
- A pleasant and mild Green Apple fragrance
- Makes gloves go on easier
